CASE No: 4:11-CV-02830

To Who It may Concern,

My name is Malkam Dior and I received a copy of the Receiver's Unopposed Motion to Approve my Claims (**SAA-00295 and SAA-00296**). I oppose the receiver's determination because I have provided an official contract and bank statements to support my claims and the returned documents were tampered with in an attempt to block my identity, important dates and useful information from being seen by the court. The original information submitted was all the information that was given to me from an investment account that I had with CitiBank and Select Asset Capital Management in 2008. My account with Citibank was closed for over 4 years, because of the of the fraudulent activity that transpired between Brian A Bjork and his online investment company Select Asset Capital Management, which is the reason why they faced fraud charges in the first place. The receiver contacted me a few times by phone and email, in an effort to force me to withdraw my claims without performing proper actions to ensure that all investors get a fair chance to file their claims. I returned all phone calls and failed to speak to directly to anyone on the Counsel because they all seemed to be too busy or on vacation at the time.

Before performing any professional research the Counsel of the receiver seem to already have the intention to deny certain claims perhaps because of the low dollar amount compared to the multi-million dollar claims and hard labor that they would encounter to get my claim resolved. It seems as if the Counsel wishes to approve claims that do not require "work" and claims that are over a certain dollar amount.

I ask for the Receiver's determination to not approve my claims to be denied because of the Counsels unsuccessful attempts to confirm claims due to lack of updated information, lackluster attempts and proper research to assist all claimants in getting their investments returned. I ask for all documents to be submitted to the United States District Court for Southern District of Texas Courts for an unbiased review and final determination as claims should be approved by the courts without being influenced by the Counsel and or Receiver.
